

September 08, 2025:

My intuition says that Fish A is placing a Lure into Fish B.

$x(- - - - A - - -)o> \text{-----} \text{Lure}<o(-B-)x$

The Lure, placed by Fish A in Fish B is turning into a reason for Fish A to capture Fish B.

In our world, the 'terrorists' inside of Fish B are operating as a reason for Fish A to reel in its catch. If Fish B rids itself of its own evil way, then Fish A no longer has 'justification' to reel in its catch.

Fish B, rid yourself of your own evil.

Fish A, your justification is now gone and your own evil way is exposed.

Fish A, rid yourself of your own evil.

At once: Fish A and Fish B, rid yourself of your own evil ways.
